BY CRIASTON & NORMAN 127 THAMES STREET.

TUESDAY MORNING, MAY 6, 1851.

24 In order to give those In our enplace an apportunity to participate in the fertivines of the day, no paper will be nsued from this office to morrow morn,

67 This day will be quite au era in Rhode Ishad History ; for the first time n many years a Democratic Governor will be inaugurated, and officers of the come political purty will be sworn to,

The procession will be formed this marning, at 10 o'clock, in front of the Belli vue House, in the following order: United States Bress Band

Artiflery Company, Col. Percy. Sheriff of the County of Newport, His Excellency the Governor, Lieut Governor and enice. Secretary of State, Attorney General and General Treasurer. Town Sargeant of Newport. Members of the Senate.

Deputy Sheriff. Speaker of the House of Representatives Members of the House of Representatives.

> Deputy Sheriff. Citizens and Strangers.

The procession will move down East Touro street, down Mill, up Thames, up the Parade, to the State House when the two branches of the General Assembly will repair to their respective Halls, and both preceed in their organization. After this is done, the two Houses will join in Grand Committee, when the votes for General Officers and Members of Congress will be received. and a Committee appointed to count them .- after which the Grand Commit the will adjourn until afternoon to hear the Report. As the number of votes this year is large, the contest being a severe one, the labors of the counting committee will be more than ordinarily severe, it is impossible to say at what hour the Report will be made, -it will probably be later than usual.

After the result is aunounced, and the onths of office taken, the usual Proclamation, according to envient custom, will be made from the Balcony of the State House, the salute fired, and the Governor escorted to his quarters, when his salute will be fired; thus will close the official doings of the day.

We are unable to conjecture how long the Assembly will be in session at this time,—probably not beyond Satur day. But little is usually done at this sension, except the election of officers; and as an effort will be made to effect an entire change in three, a ballot will undoubtedly be taken in all cases, which will necessarily consume considerable time. Whether the Democrats will updertake at this time to accomplish any of what they stily term their reforms, is more than we can say, as we are not in their secrets. The farmers do not like

main away from home long at this ey crason, and we hardly think that they will be inclined to secrifice their to from d interests, even for the sake of necomplishing great and material reforms, so dear to the vergin Democracy o: Rhode Island.

(3 The editor of the Providence Post cupies a good-natured article of ourspublished one day last week, and then comments upon it in such a manner as to reveal to any one the long cars of the animal who peaned the reply. The puppyism of the man who controls the columns of the Post has long since placed him beneath our notice. We remembut his visits to Newport, some years since, as a correspondent of the Providetice Chroniste.

¿: The following gentlemen are to be appointed to the beach of the Court of Justices, in this town, provided the Democracy have the power to do so, in the Grand Committee : - Jeseph Joslin, Elfsha Aikins, George C. CARDINAL HUGHER.-The Cincinnati Catholic Herald asserts positively that Bishop Hughes has been made a Cardinal. The Herald says:

We have the pleasure to announce that the rank of Cardina! has been positively conferred before now on Archbishop Hughes, by his Holiness Pies IX. The day fixed for this important and most interesting ceremony was that dedicated to Ireland's patron saint.

Aver's Cherry Presonal Wo would call the attention of our readers to this excellent medicine, with the satisfaction one feels in praising a benefactor. Having been afflicted by the serious effects of a cold seated on the lungs, and found relief and cure from its use, we can add our testimony to the much already given to prove its singuher mastery over disease. If any medicine before the community can be relied on to cure affections of the throat and lungs, it is Ayer's Cherry Pectoral. Christian Observer.

PHILADELPHIA, May 3. Judge King gave his decision in the long protracted District Attorney case this morning. He ruled out the second ward, Moyamensing, West Philadelphia and Penn District, which will give Wm. B. Reed, (Whig) a large majority and

entitle him to the office. It will be remembered that Horn R. Kneass (Democrat) was returned as having been elected by 34 majority, and has held the office up to the present

EATING THROUGH A BILL OF FARE. It is not often that the miracle is presented of a mortal eating an eating bill of fare. Now and then, however, such a carity does turn up. Such an one has just occurred.

The scene of the wholesale consumption took place at a hotel in Hannver street, not a thousand miles from the head of Elmstreet. A mon from Down East," sat down to dinner on Wednes, day last, and taking the hill of fare, acbuilty consumed the following amount of food-eating from the top to the bottom of the bill and we should imagine from the top to the bottom of the la-

An important business would be done this year in agriculture, a large portion of the population baying turned their attention that way. If Congress would pass any law by which the farmer may know that he has a good title to the land he improves, the State would supply in a few years all necessary for her consumption.

There has been a difficulty at San Francisco, relative to the mails between Collector of Port and Acting Postmaster. The Collector directed the Surveyor of Port to proceed to the Post Office and examine the bags landing from the steamship Panama, as they were opened. In attempting to discharge his duty, he was rudely repulsed by the Post Office officials. Nothing found to cause suspicion. The affair has caused great excitement.

BENEFIT OF ADVENTISING.-The following instance of the advantage arising from a judicious system, of advertising is given by the Phil. lequirer, Such instances are by no means rare:--

A member of a leading firm in South Third street, yesterday informed us that a few days since he commenced advertising by the year in the columns of the Inquirer. His first advertisement had been published only a few hours, when it attracted the attention of a stranger, who immediately called at his office, and after a conversation of a few minutes made a purchase, on which our friend, realized a profit of eleven hundred doljors! This is an undoubted fact, and it speaks volumes as to the value of advertising.

INPERIED CE is the Basis of IT all Real Knowledge.—To see and to FEEL in to KNOW, and that which it were said known must not be contradicted. When Galileo amousced the discovery of new planes, the Aristotelisms said, "This is impossible." Galileo replied, "Look through my beforeper, and behold." The philosopher religied. "We will not look lest we should see them." There are a few people nor-a-days easily that they will not look at facts lest some projectice should be disturbed. These persons are however, not numerous, and their stupictic injuries notand but themselves. The character of Dr. S. P. Townsend's Compound Extract of Sursaparilla rests upon universal experience alone. Without this solid foundation, it never could have attained the wide-spread popularity which it at present exposure the value and medicinal efficacy being thus demonstrated by the experience of thousands, it is only necessary to say that science ametions and verifies the vender.

Dr. JAMES R. CHILTON,

The following evidence of the efficacy of Dr. # P. TOWNSEND'S EXRACT OF SARSAPARILLA in Untaneous Dissares, is well worthy the pouts of more amouted with some vers, August 6, 1850.

to acknowledge that, after suffering for neetly nine years with the Salt Rheum in a very aggravated form, and being abandoned as neurable by reveral of our first physicians, I was finally persuaded to try your fer-famed Sarsaparilla. The effects were soon perceptible, and when I had used ten bottles, to my great surprise | fewed myself not only cured of that most disagreeable and irritating disease, but my general broken was so much improved that it autonished my family and friends. Since then I have advised others to make use of your Medicine, and have noticed its wonderful affects curing in numerone diseases, not altogether caused by a had state of the blood.
